

2019 TRAINING OPPORTUNITIES

Agriculture and Commercial School

March 19th-21st

Pentair will be conducting intermediate to advanced level training focused on agriculture and commercial water systems. This school begins with a refresher on how a pump operates and basic pump troubleshooting techniques. Training will then provide a more in-depth look at both the pump curve and how to properly size a system. Training concludes by reviewing the benefits of Variable Frequency Drives (VFDs), focusing on larger XL drives and applications. The VFD discussion will include installation, troubleshooting and maintenance issues.

Target Audience: Pump professionals who are moderately experienced with agriculture or commercial water systems.

When: Tues., March 19th - Thurs., March 21st	Where: Pentair Delavan, Wisconsin.
--	--

Cost: \$225.00*. This fee will cover: Training | Training Handbooks | 3 Lunches | 2 Dinners | Daily Snacks

*NOTE: Participants are responsible for booking their air and ground transportation, booking and covering all lodging expenses and covering meals outside of those listed above. Upon registration, you will be provided with further details about the seminar and hotel and other travel recommendations. We look forward to hosting you!

Class size is limited, so enroll today to secure your seat!
