

SUPERFLO® VS

VARIABLE SPEED PUMP

The smart pump upgrade for everyday pools.

The SuperFlo® VS Variable Speed Pump is a great choice for providing the energy cost savings of variable speed technology to everyday pools that require up to a 1.5-HP pump. An easy-to-access wiring compartment, combined with the ability to run on 115V or 230V, makes installation easy without the need for costly rewiring.

SUPERFLO® VS VARIABLE SPEED PUMP

Now even more efficient, it's the perfect replacement for your traditional pump.

SuperFlo® VS Variable Speed Pumps bring the remarkable energy savings of variable speed technology to everyday pools that require up to a 1.5-HP pump. Variable speed pumps reduce energy costs by moving water more efficiently at lower speeds. You can save as much as 80%—up to \$1,300 each year—compared to conventional, single-speed pumps.*

*Savings based on a variable speed pump compared to a single-speed pump running 12 hours per day at an average of \$0.16 per kWh in a 20,000-gallon pool. Actual savings may vary based on local utility rates, pool size, pump run time, pump horsepower, pump RPM, plumbing size and length, pump model, service factor and other hydraulic factors.

KEY FEATURES

- No expensive rewiring needed; automatically recognizes and adapts to your 115V or 230V 50/60 Hz input power.
- Simple, easy-to-use digital control keypad, with three programmable speeds, plus override capability.
- Can be controlled remotely using digital inputs.
- Real-time, 24-hour clock.
- Ultra-quiet, totally enclosed fan-cooled (TEFC) permanent magnet motor.
- Direct replacement for the SuperFlo Single-Speed Pump and a superior drop-in replacement for the Hayward® Super Pump®.
- Ideal for new and standard pool pump replacement.
- WEF 9.0 THP 2.2 (342001)
- UL Certified
- NSF 50 Certified

PERFORMANCE CURVES

The SuperFlo VS Variable Speed Pump has earned the Eco Select® brand distinction as one of the greenest and most efficient choices from Pentair.

ENERGY STAR® Certified SuperFlo VS Variable Speed Pump from Pentair meet strict energy efficiency criteria set by the U.S. Environmental Protection Agency and the U.S. Department of Energy. These pumps save money, reduce energy use and protect the environment.
