

PUMP REPAIR AND REFURBISHMENT

PUMP SERVICES GROUP

ABOUT PUMP SERVICES GROUP

OUR SOLUTIONS

The Pump Services Group (PSG) provides repair and refurbishment service designed to meet the challenging demands of customers in the Municipal, Industrial and Commercial markets. We have the technical expertise to solve pump repair problems on almost any kind of pumping equipment; submersible, centrifugal, turbine, split case or propeller pumps.

Our full service support allows us to furnish quality pump repairs in a timely manner and also meet requirements for removal, installation, field supervision, and start-up or station rehabilitation. Our test floor has a 100,000 gallon pit, a full range of calibrated test drivers and complete instrumentation, offering our customers a tremendous advantage over most repair facilities.

As a large pump manufacturer with decades of experience nationally, we have the know how to customize pumping solutions to handle capacity or system upgrades.
